

## Ionic4.x Javascript 扩展 ion-refresher 下 拉更新

主讲教师: (大地)

我的专栏: https://www.itying.com/category-79-b0.html

合作网站: www.ionic.wang (Ionic 中文网)

1、 ion-refresher 下拉更新.......1

## 1、ion-refresher 下拉更新

官方文档: https://ionicframework.com/docs/api/refresher

```
<ion-content>
<ion-refresher slot="fixed" (ionRefresh)="doRefresh($event)">
<ion-refresher-content
    pullingIcon="arrow-dropdown"
    pullingText="Pull to refresh"
    refreshingSpinner="circles"
    refreshingText="Refreshing...">
    </ion-refresher-content>
    </ion-refresher>
</ion-content>
```

```
import { Component } from '@angular/core';
@Component({
    selector: 'refresher-example',
    templateUrl: 'refresher-example.html',
    styleUrls: ['./refresher-example.css'],
})
```

```
export class RefresherExample {
   constructor() {}
   doRefresh(event) {
      console.log('Begin async operation');
      setTimeout(() => {
       console.log('Async operation has ended');
      event.target.complete();
      }, 2000);
   }
}
```
